

How to change the password

In the following document you will learn how to change your password. Here you can access the CH-LOGIN portal <https://www.myaccount.eiam.admin.ch>.

The screenshot shows the 'Login & Security' page with a grid of options. The 'Access data' option is highlighted with a red box and labeled 'A'. Below it, the 'Access data' section is expanded, showing 'User ID, email and password' with fields for 'User-ID' (CHA1011043), 'Email address' (ma*****97@gm*****il.com), and 'Password' (*****). The 'Password' field has an 'Edit' button next to it, labeled 'B'. Below this, the 'Password' change form is shown, with fields for 'Current password', 'New password', and 'Confirm password', and a 'Save' button.

If you change your password you can change this under "Access data" do.

To change this, click on "Password" to "Change".

Next to the Password field, select "Edit"

1. enter your old password
2. enter your new password and repeat it
3. Click on "Save". Your password has been changed successfully.
